**Come out and pay tribute to Everyday Heroes!!**

# 8th Annual CPR/AED Awareness Day at Six Flags Great Adventure Sunday, June 4, 2017

Guest of Honor and Keynote Speaker

Pepi Dragotta

Survivor, Champion and founder of Heroes Foundation NJ

Pepi Dragotta, a 39 year old husband and father of three, suffered from sudden cardiac arrest while playing a game of soccer with his sons team. Because of quick action taken by other parents at the field, and emergency responders only minutes away, Pepi survived this tragic event. He underwent a 6 bypass surgery at Cooper Hospital in Camden, NJ and has made a complete and full recovery.

Immediate CPR and the use of an AED is what ultimately saved Pepi's life. There was not an AED onsite at the sports complex, and that realization moved Pepi to provide lifesaving equipment and CPR training at sports fields across Southern New Jersey. That was the spark to ignite this cause...this is how Heroes was born.

Sudden cardiac arrest is one of the leading causes of death in the United States. When bystanders intervene by giving CPR and using automated external defibrillators (AEDs) before EMS arrives, 4 out of 10 victims survive.

The Heroes Foundation NJ consists of board members who are Pepi's personal heroes, and those who quickly reacted and started CPR right away before emergency responders arrival.

These people are:

Doug & Deanna Volovar  
Brian Stanker, NJ State Trooper  
Jeanette Bokma

Heroes also has a board of trustee whose members are committed to the cause, and work tirelessly to fundraise and promote awareness.
